

Introduction to Videomaking: Post-production Editing

Alessandro Tedeschi Gallo, DBL
February 24, 2023 – CHOICE JSTE Day 5, Larissa (GR)

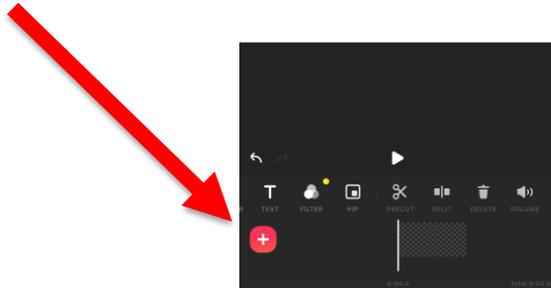

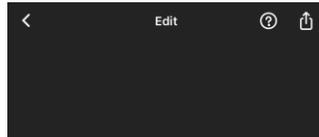

InShot

- This is InShot's Homepage
- Click on Video to start.

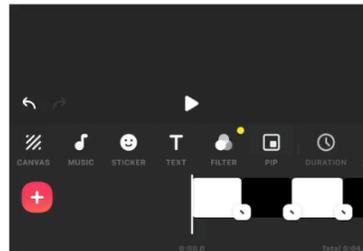

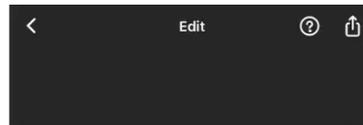

Timeline

- The Timeline is a graphic, sequential representstion of the video editing.
- With the «+» button (bottom left), it's possible to add videoclips to our video.
- With the Timeline, you can decide the order and duration of videoclips.

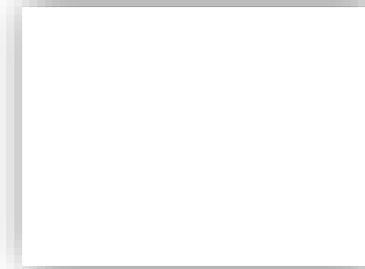

Timeline

White & Black Screen

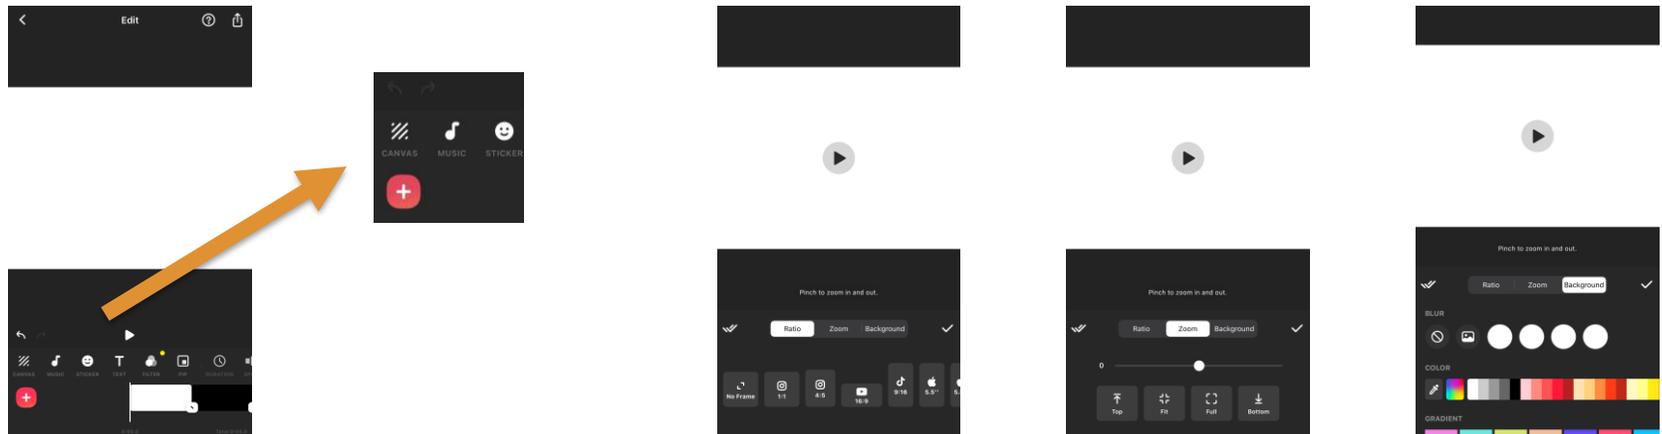

- It is useful to have a white and black screen to be used at the beginning/end, transitions, fade-outs, etc.

Let's try!

Screen Proportions

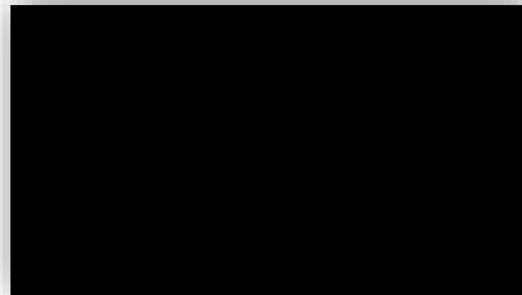

- The «Canvas» button allows to set the screen proportions
- For a movie-like video, choose 16:9
- For a TV-like video(also Instagram, TikTok), choose 4:3

First Clip

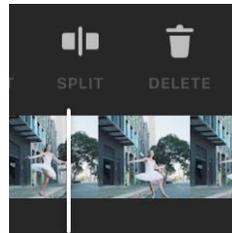

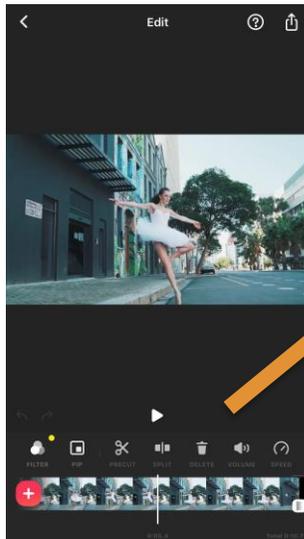

- Add the clip to the Timeline.
- Add a black screen before and after the clip.

Let's try!

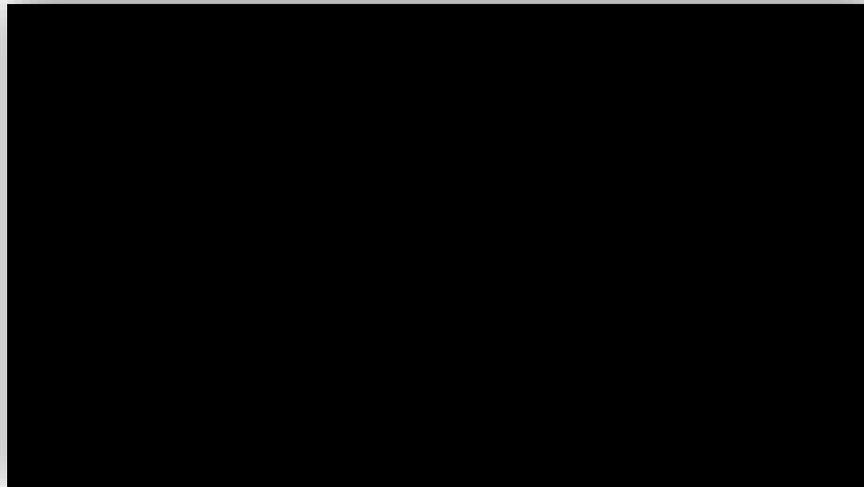

Precut

- Let's try to cut off the parts we don't need to shorten the video.

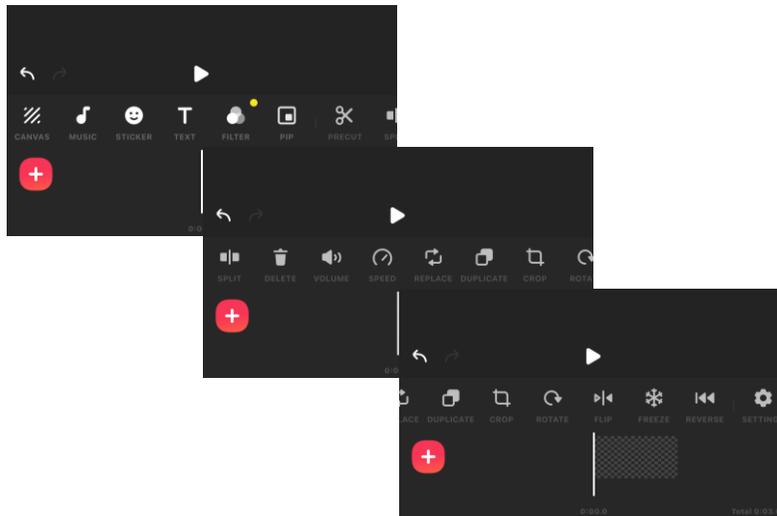

Let's try!

Short videoclip

- Now we are able to produce a short video putting together different video clips

Other Functionalities

- Music
- Stickers
- Texts
- Filters
- Speed
- Animations

...and Action!
